

RAZERS

WORLDVIEW

Transcript of Interrogation Log/Audio #52

Subject: Razer #7 - Identified as "Wolf-Friend"

Present: Douglas, Mark G and Rodriguez, Carmen S (MP Specialty Team AL-TB-61)

WOLF-FRIEND: So you want to know... what? Why we do it? *[laughter and coughing]*.

I could ask you the same. You want to recreate a civilization that nearly destroyed the lifeworld.

I want to stop that happening again. I want humanity to limit itself so that it doesn't threaten Gaia. I want development limited to 18th Century technology - if not earlier.

What? You look surprised. You think we don't have reasons for what we do? You think we're ignorant, mindless, illiterate, psychopathic killers? We seek out libraries. We know about what happened in the end-times. We UNDERSTAND what happened.

We have to It's our duty to study technology. Otherwise we couldn't recognize threats when they reappear

We've been around for nearly one and a half centuries. That's 5 or 6 generations. We have a good handle on our motives. Can you say the same?

RODRIGUEZ: And what can you tell us about this "handle"?

WOLF-FRIEND: to quote one of our philosophers "The design and configuration of technology does more than merely accomplish our ends. It also organizes society and subordinates its members to a technocratic order. Only by understanding technology's effects can we arrive at an adequate account of the "technization" or "colonization" of the "lifeworld." *[laughter and coughing]*

Yeah... philosophy. We're humans... we can think. We have free will. Would you feel better if I snarled like a rabid animal?

DOUGLAS: No.. that's OK. So what are the effects of technology?

WOLF-FRIEND: Easy.. You see.... when Technology gets to a certain stage. Technology is not a servant. It's a master.... and humans are it's slaves.

You strive to rebuild the world in the image of a failed civilization. You want people to start ripping up the lifeworld again – tearing out fossil fuels and polluting the planet. It's only just started recovering from the last time. We can't permit you to do that. We can't allow ANYONE to do that

RODRIGUEZ: But our technology saved your life. How do you feel about that?

WOLF-FRIEND: How should I feel? It just indicates that you're confused. You shoot me and then you make it a little better. I don't feel grateful. You're not going to release me. You're going to use your captive Razers for slave labor. My only source of amusement is these little chats.
